Who Is Bio-Vert?

Bio-Vert (means "green living" pronounced Bio-Vair) is a small, female-owned company located just outside of Pittsburgh, PA. Born out of the need for a value-added provider in the microfiber category, we have transcended traditional suppliers with private label kits, special run products, customized packaging, a broad product offering, and more.

Let us help you sell the kit concept, where margins increase and competitors are locked out. We'll put your name in the package and on the box.

What is Microfiber?

Complete Kits

8

Our most popular kits. All of our kits include your own customized label if you choose. We are happy to customize your own unique kit with the items YOU want in it.
